

## **Match Director Guidelines**

The Sacramento Defensive Pistol Shooters encourages all members to volunteer as Match Director for monthly matches. The following is a guideline to serving as MD and selecting stages/scenarios.

### **MD Responsibilities:**

- Select 6 scenarios for the match.
- Submit the scenarios to John Mercurio at least 2 weeks in advance for approval. Jmerc1343@yahoo.com
- Arrive at the range no later than 7:00 a.m. the day of the match with stage designers ready to construct your scenarios.
- Have at least two copies of each course description.
- Assign a shooter to give “walkthroughs” for each squad when they start a stage.
- Assist with range clean-up and stowing of props and equipment.

### **Selection of stages and scenarios:**

- No more than 2 standard stages per match.
- Prior to submitting your scenarios, ensure they follow IDPA rules. [www.idpa.com/compete/rules](http://www.idpa.com/compete/rules)
- Ensure the stages are not lopsided and will flow well. For example, do not have a stage that only calls for 6 rounds on stage 1, and an 18 round stage on stage 2.
- Make use of our props! We have all kinds of movers and swingers and other props that greatly increase the realism and enjoyment factor of the match.
- Don't feel obligated to create your own scenarios. There are literally thousands of examples on the internet. (See below)
